# **NLEP – Annual Report for the year 2016-17**

## **I. EPIDEMIOLOGICAL STATUS**

### **Status in the Country**

The year 2016-17 started with 0.86 lakh leprosy cases on record as on 1<sup>st</sup> April 2016, with PR 0.66/10,000. Till then 34 States/ UTs had attained the level of leprosy elimination. 554 districts (81.23%) out of total 682 districts also achieved elimination by March 2017.

Three pronged strategy was introduced in the program during 2016-17. The components of the strategy are:

- i. Leprosy Case Detection Campaign
- ii. Focused Leprosy Campaign
- iii. Special Plan for Hard to Reach Area

During 2016-17, LCDC was carried out in 163 districts of 20 states, wherein 34,672 cases were detected and were put on treatment. The above activity aimed at early case detection and timely treatment. The success of the Campaign can be estimated by the fact that a drastic decline in the trend of the G2D cases was achieved. Moreover, prevention of deformity in new cases due to timely detection and treatment could be made possible.

With a remarkable achievement, the Program Division took a decision to further continue and expand the Campaign. Hence during 2017-18, a total of 305 districts in 23 states were identified for LCDC phase I.

In the year 2016-17, Focused Leprosy Campaign was carried out by house to house survey in the village/ urban area( covering 300 households) wherein even one case of Grade 2 disability due to leprosy was detected. As per the reports received from 21 states, 1171 cases have been detected, so far, indicating 0.74 per 10,000 population covered.

The purpose of the Special plan for hard to reach area is to find the cases in uncovered population like difficult terrains, naxalite affected areas and other geographically difficult locations. The identification of hard to reach areas is a continuous process and many areas in different States/UTs have been identified and many more are being identified.

Another innovation introduced during the year was Sparsh Leprosy Awareness Campaign through Gram Sabhas, carried out with the help of Panchayat and Village Health and Sanitation Community. The expected outcome of the above activity was to generate awareness, reduce stigma

and improve self-reporting by the cases. The activity was carried out in 60% of the total villages across India.

Based on the reports received from all the States and UTs for the year 2016 -17(**Annexure -I**), current epidemiological situation under leprosy, in the country is as below:

1. A total of 1,35,485 new cases were detected during the year 2016-17, which gives Annual New Case Detection Rate (ANCDR) of 10.17 per 100,000 population, as against 1,27,334 cases in 2015-16.
2. A total of 88166 leprosy cases are on record as on 1st April 2017, giving a Prevalence Rate (PR) of 0.66 per 10,000 population, as against 86028 cases in 1<sup>st</sup> April 2016.
3. Detailed information on new leprosy cases detected during 2016-17 indicates the proportion of MB (49.57%), Female (39.17%), Child (8.7%), Grade II Deformity (3.87%), ST cases (18.80%) and SC cases (18.78%).
4. A total of 5245 Gr. II disability detected amongst the New Leprosy Cases during 2016-17, indicating the Gr. II Disability Rate of 3.94 / million population (**Annexure-II**).
5. A total of 11792 child cases were recorded, indicating the Child Case rate of 8.7% (**Annexure-III**).
6. Trends of Prevalence Rate (PR) and Annual New Case Detection (ANCDR) (Per 10,000 population) are indicated in the graph below:

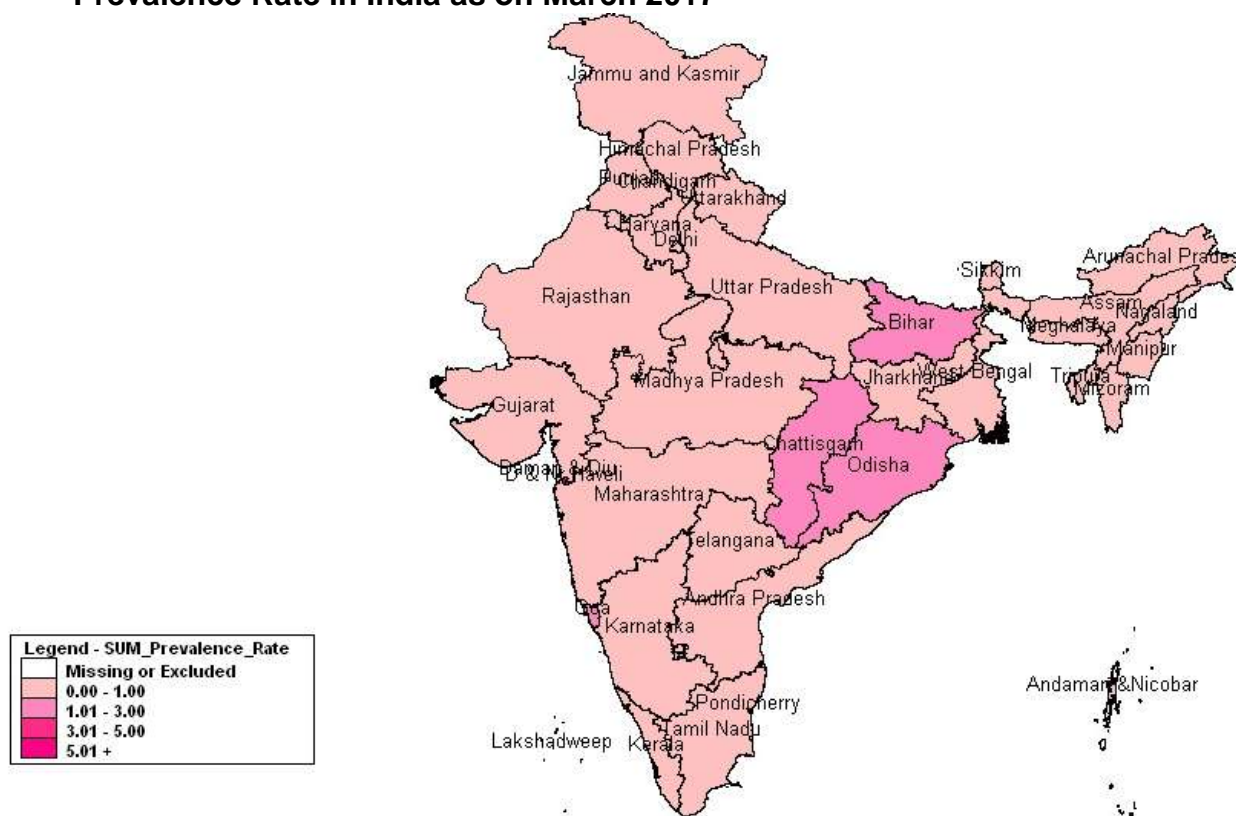

**Note:** The increase in new cases and prevalence during 2012-13 was attributable to the NLEP strategy to carry out extensive house to house survey for new case detection. Further increase in ANCDR during 2016-17 is attributable to Leprosy case detection campaign.

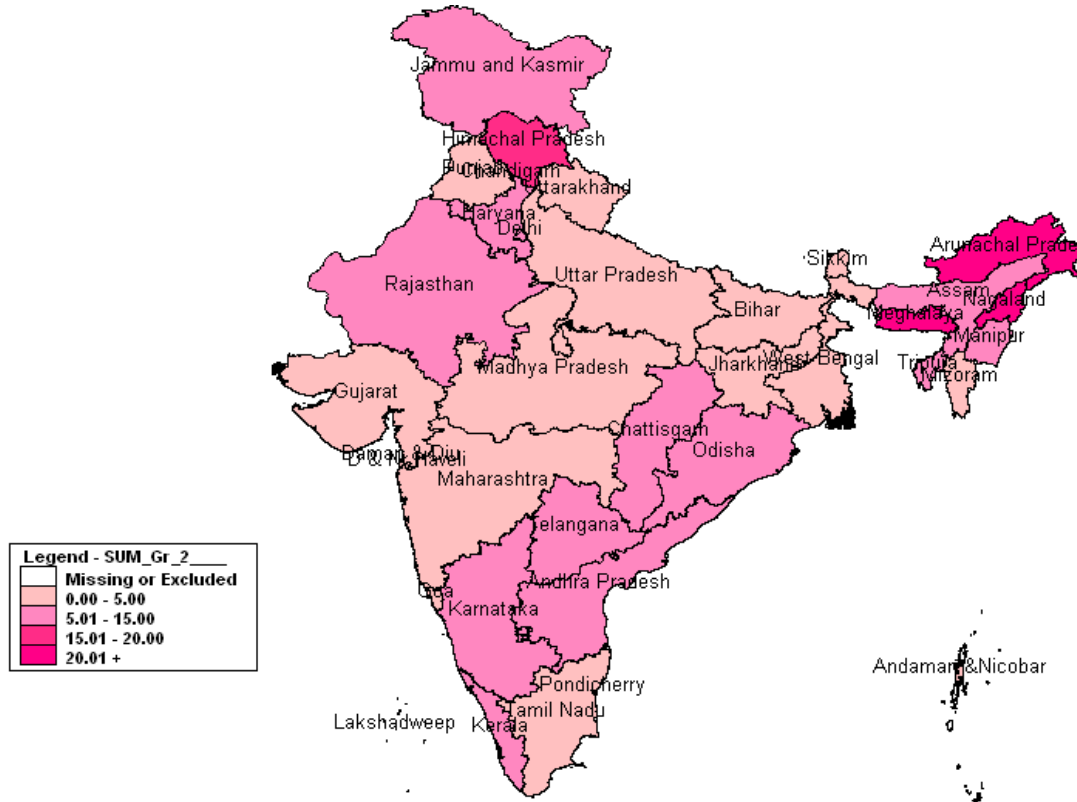

### Status in the States/UTs

34 states and UTs achieved elimination out of 36 States/ UTs. One State (Chhattisgarh) and one U.T. (Dadra & Nagar Haveli) are yet to achieve elimination. Five more states/UTs wherein elimination was achieved earlier, namely Odisha, Bihar, Chandigarh, Goa and Lakshadweep have reported with PR>1/10,000 population, as on 31<sup>st</sup> March 2017.

### Prevalence Rate in India as on March 2017

## Grade-II Disability Rate (out of new cases detected) (%) in India for 2016- 17

Proportion of Child cases was more than 10% of new case detected in 10 States/UTs namely (i) Arunachal Pradesh 10.71% , (ii) Bihar 13.70%, (iii) Jharkhand 10.59% , (iv) Maharashtra 10.18 % , (v) Nagaland 11.76% , (vi) Punjab 17.25%, (vii) Tamil Nadu 17.64%, (viii) D&N Haveli 19.79% , (ix) Daman & Diu 14.29% ,and (x) Lakshadweep11.11%

### Status in the Districts

1. District wise situation on the basis of ANCDR for the year 2016- 17 is given as below:  
 495 (72.58%) districts out of total 682, have ANCDR < 10 per 100,000 population and 101 districts had ANCDR > 20/100,000. 23 districts with ANCDR> 50/100,000 population were reported from Bihar (1), Chhattisgarh (7), Gujarat (3), Jharkhand (1), Madhya Pradesh (2), Maharashtra (1), Odisha (5), West Bengal (1), Lakshadweep (1) and Dadra & Nagar Haveli (1). Three districts reported with ANCDR greater than 90/100,000 population, i.e, Raigarh (108.15) & Mahasumund (91.83) in Chhattisgarh and Dangs (91.69) in Gujarat.  
 18 Districts from 6 states namely, Bihar(4), Chhattisgarh(3), Gujarat(1), Maharashtra(3), UP(2) and West Bengal(5) reported with more than 1000 new cases during the year 2016-17.

### Year wise endemicity of districts on ANCDR basis

ANCDR/100,000	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17

<b>Total</b>	<b>640</b>	<b>649</b>	<b>657</b>	<b>669</b>	<b>669</b>	<b>682</b>

2. District wise situation on the basis of PR since March 2012 to March 2017 is as below

### Year wise Status of Districts on PR basis

PR/10,000	2012	2013	2014	2015	2016	2017
<1	542	528	542	532	551	554
1-2	71	85	74	97	76	75
2-5	26	30	38	39	39	49
5-10	1	6	3	1	3	4
>10	0	0	0	0	0	0
<b>Total</b>	<b>640</b>	<b>649</b>	<b>657</b>	<b>669</b>	<b>669</b>	<b>682</b>

A total of 554 districts (81.23%), out of 682 districts had reported PR<1/10,000 population. 128 districts reported with PR>1/10000 population.

As on March 2017, 53 districts in 11 States/UTs reported with PR > 2/10,000 population. These states are Bihar (4), Odisha (8), Chhattisgarh (15), Gujarat (5), Jharkhand (3), Madhya Pradesh (2), Maharashtra (6), West Bengal (6), D&N Haveli (1), Lakshadweep (1) and Delhi (2).

- 313(45.89%) districts reported with Gr. II disability as more than 2 per million population.
- A total of 1.19 lakh (94.51%) new cases completed their treatment within the specified period and were released from treatment (RFT) as cured during 2016-17. Poor performing states are Mizoram (45.45%), Tripura (50.00%), Daman & Diu (38.10%) and Lakshadweep (46.67%).
- Among "Others Cases", a total of 7465 (83.68%) completed their treatment on time and were released from treatment (RFT) as cured.

6. Total number of cases released as cured during 2015-16, comes to 1,25,302 (94.33%). This brings the total number of persons affected by Leprosy, cured of the disease, with MDT in the country, from the beginning till date to 130.59 lakh (13.05 million).

## **Other Programme aspects**

### **A. DPMR Services**

Information pertaining to the Disability Prevention and Medical Rehabilitation (DPMR) as received from the States/UTs is given as below:

1. Total 115 (Govt.- 61 and NGO- 54) Institutions have been recognized for conducting Reconstructive Surgery to correct the disability in Leprosy Affected Persons.
2. During the year 2016-17 a total of 2591 RCS (Govt. – 736 and NGO – 1855) were conducted.
3. A total of 536 Relapse cases were confirmed and treated at District Hospitals.
4. MCR foot-wears were provided to 75739 Leprosy Affected Persons in the year 2016-17.

### **B. ASHA Involvement**

ASHAs under the NRHM were involved in Leprosy programme for last 8 years. However during 2016-17, their participation has substantially improved. Out of the total 135485 new cases detected, cases brought by ASHA were 48186 (35.57%). ASHAs also helped in completion of treatment in 32490 cases. Incentives were paid during the year to 20095 ASHAs.

### **C. Child cases with Grade II disability**

To give focus on the policy of No. child cases with disability, information on the cases of Gr. II disability in children was collected and compiled at the central level. Out of the total 11792 new child cases detected during 2016-17, the number of child cases with Gr. II disability was 156.

### **D. Training**

- (i) There are number of trainings on Leprosy held across India for enhancing efficiency of manpower. Manpower trained during 2016-17 includes Medical officer- 10476, Health supervisor- 14102, Staff Nurses-3557, Pharmacists- 763 and ASHA-133695.
- (ii) Training was also conducted by the Central Govt. Leprosy institutes in the year 2016-17. Central Leprosy Training & Research Institute, Chengalpattu, Tamilnadu conducted 07

courses for 278 participants and one day orientation programme for 227 participants. Regional Leprosy Training & Research Institute, Gouripur, West Bengal has conducted 1 course for 28 participants and one day orientation programme for 196 participants, Regional Leprosy Training & Research institute, Raipur, Chhattisgarh has conducted 07 courses for 37 participants and one day orientation programme for 338 participants.

## **E. IEC /BCC**

The various mode of communication for conducting IEC activities to spread awareness about leprosy at mass level has been undertaken at center & state level in the year 2016-17.

### **(i) State level**

As per the reports submitted by the states on IEC activities undertaken in the year 2016-17, Newspapers advertisement, posters, Handbills, stickers, Pamphlets, leaflets, press conference/ Briefing/ Press Release, TV spots, Radio jingles, cinema slides , Talk on TV/Radio , Rath, Rallies Mela, Haat, Nukkad Natak/ Road show, Magic show, puppet show , folk dance/songs, Banners/Hoardings, Wall Painting, Exhibition's , and inter personal communication (Meeting, conferences, talks, door to door survey , quiz) have been actively undertaken.

Sparsh Leprosy Awareness Campaign was carried out through Gram Sabhas, by taking an oath for not to discriminate with the person effected by Leprosy on 30<sup>th</sup> January 2017. In continuation to this, Anti Leprosy Fortnight was also carried out throughout the country from 30<sup>th</sup> January 2017 to 13<sup>th</sup> February 2017.

### **(ii) Central level**

The IEC activities undertaken in the 2016-17 at central level were printing of Half page Advertisement in newspapers in Hindi, English and Regional languages which were released through DAVP on 30<sup>th</sup> January 2017. Broadcast of Radio Spots through All India Radio, Telecast of Video Spots & Documentary through Doordarshn & Lok Sabha TV was also done.

National Leprosy Programme participated in India International Tread fare from 14<sup>th</sup> to 27<sup>th</sup> November 2016. An exhibition was setup for the advocacy of the programme.

Central Leprosy Division is publishing E-Newsletter as a platform to share guidelines, feedback/best practices, experiences and activities undertaken in the programme in coordination with partner/ States/NGOs/Institutes/Medical Colleges & Associations etc. It is a quarterly publication from the house of CLD. It is serving as one of the important tools for communication and sharing of information, update the knowledge and educate our stakeholders as well as target groups.
